THE BUZZ

We'll help you grow!

TOP NEWS OF THE MONTH

>>> HIGHLY DEMANDED SEEDS - **IYKYK**

Drop by the shop and take a peek at our *highly* anticipated and **updated** SEED MENU. We have added a handful of new Faceoff OG Kush crosses to our collection. All varieties are feminized photoperiods that have undergone extensive germination testing to ensure our customers are successful the first time around!

HAPPY HOLIDAZE: **STUFF THEIR STOCKINGS WITH SH!T!** <<<

Whether they're naughty or nice, stuff their stockings with Sh!t, this year! Fish Sh!t is the ultimate gag gift for the gardener/grower in your life, that is also functional! By introducing a wide variety of beneficial bacteria and microorganisms in to the rhizosphere, Fish Sh!t creates an optimal symbiotic relationship between plant and soil. Mention this ad and receive 5% off until Christmas Eve.

**Beau-Dog not included.*

VEGETATIVE GROWTH (PHOTOPERIOD)

MARY, MARY, QUITE CONTRARY; HOW DOES YOUR GARDEN GROW?

YOU GROW, GIRL!

- When plant is about 3-4 weeks old, transplant seedlings into bigger pots with well fertilized soil - we recommend beginning with FoxFarm Happy Frog or Roots Organics soil and, eventually, up-potting into FoxFarm Ocean Forest soil. Sprinkle Mycorrhizae, such as Great White or Mykos, directly on roots during transplant.
- Water thoroughly and only water when the soil is dry. Make sure to water until you see run-off -- soil that is dried out too much becomes hydrophobic.
- You may start to feed your plants a vegetative fertilizer according to the instructions listed on the bottle.
- Veg your plants until desired height is reached. Leave room for plants to double in size during flowering stage.

MIKE'S PRO-TIP

In the vegetative stage, if you're running HID lights (MH, HPS, CMH), you'll want to run slightly lower temps (between 72 and 78 degrees Fahrenheit) due to these lights having more IR and UV. If you're running LED lights, you'll want to run slightly higher temps (between 78 and 82 degrees Fahrenheit) due to less IR. Humidity levels for any kind of light will stay between 60-70% for vegetative growth.

- Please note: CO2 supplementation requires higher temps and heavier feeding schedules.

HIGH GOALS

- If your plants are outgrowing pots, transplant into larger pots before the bloom stage.
- In a 5x5 grow area, we recommend growing 4 plants in 10 gallon containers or larger.
- The goal is to have stems from wall to wall for a maximum yield.
- Once your tent is 3/4 full, it is time to switch your light cycle for flowering -- 12 hours on and 12 hours off to begin Day One of flowering.

Vegetative Must-Haves:

- FoxFarm Happy Frog Soil
- FoxFarm Ocean Forest Soil
- Roots Organics Soil
- 1-3 Gallon Pots
- 5-7 Gallon Pots
- Great White
- Mykos
- Recharge
- Fish Sh!t
- BuildASoil Aloe Flakes
- BuildASoil Quillaja Extract 20
- Vegetative Fertilizer
- Low Stress Trainers

POLLEN DONOR

MIKE'S FEMINIZED PHOTOPERIOD SEED VAULT

The OG Collection 2.0*

*All of the genetics contained within this line have been crossed with FaceOff OG Kush.

FaceOff OG Kush, is a 90's CULT-CLASSIC! A strain not intended for the lightweights, she is revered for her overwhelmingly unique flavor and a skull crushing high - that starts in the head and face, thus the name. Her dense, resinous lime-green buds are covered in red pistils and give off a sweet, earthy, and piney odor. Original genetics via Archive Seeds.

**FACEOFF
OG KUSH***

**FORBIDDEN
FRUIT***

Few strains are as appropriately named as **Forbidden Fruit**, a tantalizing hybrid born for flavor! This strain is a mouth watering marriage of **Cherry Pie** and **Tangie** - How could you go wrong?

**BLUE
ZUSHI***

Blue Zushi is the modern definition of purple candy gas. She is incredibly frosty with her own signature morphology. As she fades into a gorgeous dark purple, her terps become so sweet and loud that they cut through most everything.

BREEDER'S CUT

**PERMANENT
MARKER***

Permanent Marker is a potent strain that leaves a lasting effect. Boasting a minty aroma with hints of pepper, gas, and cookies, as well as sky-high THC levels, it's no wonder this strain has become so popular.

**BLUEBERRY
SUGAR**

Hailing from the Blockhead Buds lineup, **BlueBerry Sugar** is a cross of **Grape Cream Cake 2.1** and **Blueberry Frosting**. The effect is happiness paired with some really nice relaxation.

**UNICORN
POOP***

Originating from the crossbreeding of **GMO** and **Sophisticated Lady** strains, **Unicorn Poop** boasts a remarkable THC content and flavor profile - —a harmonious mix of sweet, sour, and earthy tones.

**BLACKOUT
BOBBY***

Boasting a thick, dense structure with compact purple buds, **Black Out Bobby** delivers a flavor and aroma reminiscent of a Middle Eastern bazaar, with hints of pepper, incense, and blackberry.

**TRIANGLE
MINTS***

Triangle Mints, ALSO KNOWN AS THE **WEDDING CAKE CUT**, is a resin-coated, GORGEOUS green Queen known for her **DENSE BUDS**. She is **STICKY, SWEET** and **FUEL** all at once.

SMACKERZ*

Relentless Genetics didn't hold back when creating **Smackerz**. A cross between **Gorilla Glue #4** and **Rozay**, this indica-leaning hybrid strain boasts earthy aromas and balanced effects. **Smackerz** has a sweet and fruity flavor.

GRAPE GAS*

Grape Gas is the ultimate grape-flavored strain. This legendary cultivar was created by crossing **Cannarado's Grape Pie** to **Compound's Jet Fuel Gelato**. The nose is that of sweet candy grapes with intense backend gasoline terps.

**TRICHO
JORDAN***

Tricho Jordan, a cross of **Chimera #2** and **#3**, shows off deep purple and emerald green hues, bedazzled in a coat of sparkling trichomes. Specifically bred for maximum terpene production and hash washing.

APRIL'S GARDEN RECIPES

SOUTHERN - STYLE COLLARD GREENS

»»» WHILE VISIONS OF COLLARD GREENS DANCED IN THEIR HEADS

Shhhhhh, April's TOP SECRET Collard Greens recipe is yours to keep!! This legendary dish will quickly become the talk of your Holiday gatherings. To prepare, combine all ingredients in a slow cooker. Cover and cook on LOW for 9 - 10 hours. Remove ham hocks from the crockpot and thoroughly remove all fat and bone before returning meat to slow cooker. Stir into greens and serve.

INGREDIENTS:

- 1 lb Smoked Ham Hocks*
- 2 (14 oz) cans Chicken Broth*
- 2 lb Collard Greens, chopped fresh*
- 1/2 cup Sweet Onion, chopped*
- 2 tbsp Light Brown Sugar*
- 2 tbsp Apple Cider Vinegar*
- 2 tsp Kosher Salt*
- 1 tsp Crushed Red Pepper*
- 1/2 tsp Black Pepper*
